

# CHRISTIAN TALLNER

Application manager

## PROFILE

I am a dedicated person that enjoys learning new things and solving problems together with other engineers. I am not afraid of diving into technical areas outside my comfort zone. My next goal in my professional life is to learn more about software development in other professions of engineering.

I am a fast learner that can easily relocate or work remote, and I am sure I will contribute to your team!

Docker ----> Basic knowledge  
Kubernetes ----> Basic knowledge  
AWS, Azure----> Basic knowledge  
Golang ----> Low knowledge

## EDUCATION

### Lunds Technical University

2002 - 2005

MSc Electronics, Specialized in industrial control systems

### Kristianstad Technical University

1999 - 2002

BSc Computers and electronics, Specialized in electronics

## EMPLOYEMENTS

### B&R Industrial Automation AB, Application Manager

2015 – ongoing

Assignments include developing and manage a team of 15-20 engineers, manning projects, recruitment and being a part of the local management team.

### B&R Industrial Automation AB, Team leader projects

2010 – 2014

Same as for application engineer, but also managing projects and keeping an eye on younger coworkers.

### B&R Industrial Automation AB, Application engineer

2005 – 2009

Assignments included implementation of software for different kind of industrial machines. Programming within IEC61131, but also sometimes on C. Since we are a supplier of controlsystems, there is a big focus on customer cooperation.
